Classroom News

Room 2 says welcome to school! Our busy babies love music, face to face talk, peek-a-boo games and Circle Time; as well as the climbers and crawling through small and big tunnels. They also enjoy art projects with shapes and colors, also listening to favorite stories. We have been working on a special gift for grandparents.

Room 3 The children love to do art and get excited when they hear the word "Circle Time" they enjoy when we say "vamos", which to them means "Time to go outside!"

Room 5 Back to school in September is always exciting! We look forward to meeting new friends and welcoming back friends who were away for the summer. New endeavors await us this new school year. Can't wait! In September we will appreciate our Grandparents and let them know they have a special place in our heart and lives. It's fun to see and learn about animals. We will focus on the farm life of animals, do crafts on pigs, sheep, cows, horses and ducks. We will read the book "Charlotte's Web". All month we will paint, paint, paint, using all colors and different shapes and art mediums. We especially love Dinos, a very popular item in the class. We'll use our dino toys everywhere, learn about their size and what kinds of foods they eat.

Room 10 Miss Evelyn says we've had a great cool summer! Time to get our busy bees ready for Pre-K. We will be discussing our feelings and how to cope outside our home. We will introduce letters A,B,C and numbers 0,1,2,3 and how we use them every day. There will be daily interactive routines using apple themes and the colors red, yellow and green. Separating from Mom and Dad is the first big step, having fun learning and being excited about school is the next!

Room 11A is getting ready for our new academic year. We are welcoming new friends and returning friends.

Jr. K We are very excited to meet all of our wonderful students and their families. During the month of September we will learn about self awareness and about our families and community helpers. As we learn about the 5 senses we will be doing some cool cooking and science projects.
